I think Steve Way is the best spokesperson on why removal won't be enough which is really the issue. He has gained their trust over the last couple of years.

Johanna – Do you think someone from Site Assessment will be going to Silverton for the county meeting? Seems like someone should since the discussion will include listing (or adding). I am presuming that Steve Way may also attend but need to check with David Ostrander.

Paula/Steve,

Martin asked me to have you (Paula) make arrangements for the Upper Animas trip on 4/22-24. I assume you will be taking an EPA vehicle. Please let Martin know the details of his travel plans. Also let Noah know about hotel accommodations.

Thanks!

Bill
